Coins, Medals, &c.

FOR SALE BY

JOHN W. HASELTINE,

No. 201 S. Eleventh Street,

PHILADELPHIA.

PRICE, FIFTY CENTS.

1884-5.

PHILADELPHIA:

SAMUEL A. BAVIS, BOOK AND JOB PRINTER, 1011 MARKET STREET.

1884.

SCALE OF ONE-SIXTEENTH OF AN INCH.

SCALE OF MILLIMETERS.

In the metric system of measures, which is purely decimal and corresponds to our system of dollars and cents, the meter or unit equals $39\frac{3}{8}$ inches, which is divided into tenths, termed decimeters; hundredths, termed centimeters; thousandths, termed millimeters, into which (millimeters) the above scale is divided.

P R E F A C E.

PHILADELPHIA, May 31, 1884.

Parties, when sending their orders, will please send a sufficient amount of money to pay for them, covering postage, and had better select a greater number of pieces than they send the money for, as it is impossible to have all that is mentioned in this catalogue always in stock. Postage is four cents for a coin about the size of an old copper cent, when sent by letter, and one cent when sent as merchandise post matter; ten cents additional should be sent for registering. Those wishing coins sent by mail will please state it, and they will be so sent, but at *their* risk.

Coins, etc., will be sent on approval to collectors personally known to me. Others who desire them sent in this way must send the amount in full for goods they wish, which will be held until the package is returned, when the balance of the money will be returned, I paying the cost of sending one way only. Coins sent on approval must be promptly returned after a reasonable time for inspection.

Collectors of coins, etc., wishing to purchase at auction sales will be furnished with catalogues upon application. If orders are not received for three consecutive sales, they will be discontinued.

I will attend all auction sales of coins, curiosities, autographs, paper money, etc., in this city and New York, and will execute all orders sent me, using careful judgment in purchasing. Where pieces in the sale are not as represented, I cancel my orders. My commission for buying is ten per cent. on the purchase.

Collectors, when sending orders, will please understand that, at sales, all coins, etc., are sold at so much each and not so much for the lot. If there are more than one piece in a number or lot, the lot is sold at so much each, no matter how many pieces there may be in it. Bidders are, therefore, requested to send their bids at so much each piece, and if not so mentioned they will be understood as meaning so much each. Purchases at sales must be promptly remitted for.

All remittances must be made by negotiable draft or post-office money order; otherwise at the sender's risk.

Collections of any size purchased or catalogued for sale by auction. If collectors desire to dispose of their cabinets by the single piece, I will offer them at their prices, charging for the same a commission of fifteen per cent.

This catalogue is issued for the benefit of collectors of coins, paper money, etc., given them the present market or *selling* prices, and is not a publication showing my *buying* prices. To avoid needless correspondence, I append the following brief remarks:

The only United States coins that I desire to purchase are the scarce dates and foreign coins prior to 1700. The condition of coins always regulates the price, those in poor condition being worth but little. The safest and best manner to send coins to me is by express. A list of the coins I do purchase will be furnished on application.

Proof coins are sample specimens of the coinage of the different mints, struck for collections, etc., and not for circulation. Especial care is always exercised to make proof coins perfect specimens in every respect, by polishing and burnishing the dies and planchets before striking. These coins are readily known by their mirror-like surface. In degrees of condition, a proof coin is the highest, uncirculated the next, and so on.

No one but an expert should attempt to clean a coin.. Copper coins should not be cleaned with acids. Sweet oil is the only thing that will loosen the dirt without injury to the piece. Silver coins may be made somewhat brighter by immersion in a weak solution of ammonia.

Communications requiring an answer must be accompanied with a two cent postage stamp.

Five cent nickels without the word "Cents" on I do not buy.

I have no branch house and do not employ agents.

JOHN W. HASELTINE,
No. 201 S. ELEVENTH STREET, PHILADELPHIA, PA.

United States and Foreign Coins, Medals, &c.

USUALLY IN STOCK.

Colonial and Continental Coins.

Postage Stamps.

It being the usual custom of dealers in Postage Stamps to get rid of their superfluous stock of common Stamps through the medium of Stamp Packets, I have concluded to vary the monotony of lists usually issued and to issue a list of the scarcer varieties, so that in each Packet ordered a collector may find many Stamps that, even if he has them in his own collection, will be of ready sale or easily exchanged with other collectors. I feel confident that these Packets will be appreciated when seen, as great care will be taken to have every country named in each Packet, and in the best order. To other dealers, I will state that the prices being so low, and in consideration of the quality and variety of the Stamps, no discount can be allowed, as the prices are net. A two cent stamp must accompany the order for each Packet. It will be remembered that in each Packet there are no duplicates. All Stamps are guaranteed as genuine unless otherwise stated.

Ye Olden Time Stamp Packets.
